

**Everybody: (give people ipads)**

**Tour guide Coco:** Welcome to NHM Alive, a natural history museum! Today we will be exploring an app called NHM alive.

**Tour guide Meakah:** First, please turn on your iPad. Go on the NHM Alive app.

**Tour guide Nicole:** Next, you have to watch the introduction. However, if you have already been on this app and you have watched the intro you may skip it.

**Tour guide Coco:** Now, we will make a decision. You can either choose the Giant Moa, the Archaeopteryx, Sabre toothed cat, the American Mastodon, Gigantophis, the Gigantopithecus, the Dodo, Ichthyosaur, or the Glossotherium. For this one you can read by yourself, and after lunch we will all learn about the the Dippy. There will be a button at the top left corner. Please press it. A bar will pop up. Press the middle one and information will appear. You will do this on every animal.

**Tour guide Meakah:** Lunch break! Alright, boys and girls, follow me.

.

**Tour guide Coco:** Now we are going to investigate the length, height, and the weight of the Dippy.

**Tour guide Nicole:** Now we will read the 1st and 2nd paragraph.(read info)

**Tour guide Coco:** Now we will read about the giant moa.An animal that is realated to the ostrage.Read the key facts,the 1st and the 6th paragraph. (read info)

**Tour guide Nicole:** The last animal we will be learning information about together is the Gigantophis, a snake.You can read this by yourselfs this time.

**Tour Guide Coco:**You may do the rest of the animals or listen to Meakah

**Tour guide Meakah:** Please turn off the iPad and give it to Nicole here. Thank you for learning all about NHM Alive.

**Thank You For Listening!!!!!!!!!!!!!!!!!!!!**

*Tour Script By: Meakah, Nicole, and Coco*
