

Tour Guide SAQ

Tour guide:welcome to the app of volcanoes you are in for a very exciting trip to the world of volcanoes :)

Tour guide:click on the button at the bottom of your screen:)

Tour guide:go to articles and click on The Erupting Earth then you see lots of facts then you should go to Destructive forces:) :) :)

Tour guide:it tells you all about the destructions of volcanoes:) :) :)

Tour guide:it gave us lots of facts you should read it to :) :) :)

Tour guide:You can also do the section types of volcanoes:)

Tour guide:then you see lots of facts then you should go to Stratovolcanoes it is the most common type of volcanic landforms:)

Tour guide:it gave us lots facts you should read it :)

Tour guide:Also you can go to Plate Tectonics

Tour guide:then you can read all of the facts on tectonics and use the facts postcards or something :)

Tour guide:Plate tectonics is a theory or idea that says that Earth's outer layer or crust is made up of large pieces called plates :)

Tour guide:Next you can go to Lava and Magma :)

Tour guide:and you can find stuff about Lava or Magma when you are in Lava and Magma :)

Tour guide:next you can go to birth of an island:)

Tour guide:Surtsey island off the coast of Iceland in the North Atlantic Ocean was born rather suddenly from volcanic action:)

Tour guide:and you can click play to watch a video about a birth of a island:)

Tour guide:The video shows a volcano erupt and the birth of an island:)

Tour guide:Finally you can go to Eruptions:)

Tour guide: then it tells you about eruptions like in pompeii a volcano erupted and thousands of people died:)

Tour guide: Mount Unzen underwent a major eruption in 1792 that killed as many as 15,000:)

Tour guide: Thank you for coming to our tour guide:)
